

NOTICE OF PUBLIC COMMENT PERIOD AND PUBLIC MEETING

ConocoPhillips Los Angeles Refinery Carson Plant Draft Post-Closure Permit Carson, California

PUBLIC COMMENT PERIOD: August 23 to October 9, 2007

What Is Being Proposed?

The Department of Toxic Substances Control (DTSC) invites you to comment on a draft Post-Closure Permit for the closed Process Water Pond located in the ConocoPhillips Los Angeles Refinery (LARC) in Carson.

DTSC is the state agency responsible for regulating the generation, storage, treatment, and disposal of hazardous waste in California. If approved, the 10-year post-closure permit would require long-term monitoring and maintenance of the closed hazardous waste Process Water Pond.

As part of the permit process, DTSC has performed a review of the proposed draft post-closure permit as required by the California Environmental Quality Act (CEQA). Based on this review, DTSC has determined that the proposed draft permit will not have any significant adverse effects on public health or the environment. DTSC proposes to issue a CEQA Notice of Exemption in connection with this project.

A 45-day public comment period begins August 23 and ends on October 9, 2007. Written comments must be postmarked or emailed by October 9, 2007 and sent to:

Mr. Mike Eshaghian
DTSC Project Manager
